EDUCATION

New York University *New York, United States*
M.S. in Project Management (GPA 4.0/4.0) Sep. 2025 - Present
Beijing Normal-Hong Kong Baptist University *Guangdong, CHINA*
B.A. in Public Relations & Advertising | Second-Class Scholarship; Diamond Award (2025) Sep. 2021 - Jun. 2025
University of Hong Kong Media Summer School **(Ranked #1 in class)** | University of Edinburgh Business Communication Summer School

INTERNSHIP EXPERIENCE

Monolith Capital *Beijing, CHINA*
Investment and Investment Operations Intern Dec. 2025 - Present

- Researched AI models, agents, and applications; produced market maps, competitive analyses, and company briefs to support investment screening.
- Sourced early-stage companies and mapped founders, technical talent, and industry experts; maintained sourcing pipelines and supported initial screening of teams, products, markets, and financing history.
- Independently built an internal AI company and product tracking tool with standardized fields, source verification, and update workflows, now used for recurring team research.

Crossing (Tech Media) *Shanghai, CHINA*
Content Operations & Editorial Intern Apr. 2025 - Sep. 2025

- Tracked global AI startup activity across models, agents, and AI-native tools; produced newsletters, in-depth WeChat articles, podcast companion pieces, and company/product research.
- Redesigned editorial templates and collaboration workflows for topic selection, fact-checking, formatting, and publishing, increasing team production efficiency by approximately **40%** while reducing rework.

36Kr - Waves (Technology & Venture Media) *Beijing, CHINA*
Media Operations Intern Jun. 2024- Oct. 2024

- Scaled a Xiaohongshu investment-media channel from early operations to **10,000+ followers; top post reached 400,000+ views and 3,000+ engagements**.
- Developed content around AI startups, VC deal flow, and founder stories, turning audience comments and performance data into repeatable content themes for a tech and finance community.

SELECTED PROJECTS

Orbit | Google Hackathon - AI-Powered Creator Marketing Platform *New York, United States*
Project Lead | [View Demo](#) Sep. 2026 - Present

- Designed and built a mobile-first creator marketing platform with dating-app-inspired swipe discovery and concise creator profiles, enabling marketers to screen candidates quickly during short browsing sessions.
- Used Gemini multimodal analysis to generate match scores backed by timestamped video evidence; connected creator selection with AI-generated campaign briefs and personalized outreach, with human approval at key steps.

Adaptive Sync | Asana Challenge - AI collaboration features *New York, United States*
Project Lead | [View Demo](#) Feb. 2026 - May. 2026

- Mapped fragmented updates and status drift across Slack, Jira, and Asana; designed an AI workflow to extract tasks, owners, deadlines, and blockers from Slack and update Asana.
- Defined onboarding, role-based permissions, audit logs, human review, and fallback paths to support automation within existing team workflows.
